ROSEMONT GARDENS

FLORISTS

116 DEXTER AVENUE

MONTGOMERY, ALA.

Catalogue of Choice Roses,
Bulbs and Plants

For Spring Planting

IMPORTANT INFORMATION FOR OUR CUSTOMERS

This list cancels all previous offers and our prices will be found as reasonable as is consistent for well grown, true-to-name stock.

Remittances should be made by postoffice money order, drafts on Montgomery banks or express money orders. We disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain them, letters should be registered. If check is sent, add ten cents for exchange.

Cash with order.—Please send money with the order, sufficient to cover the whole bill. Orders from unknown parties will not be sent C. O. D. unless remittance is made on account to guarantee acceptance.

Errors.—We exercise the utmost care in filling orders, yet, in the press of business, errors sometimes occur, in which event we wish to be promptly notified of the fact and will make such correction as will be satisfactory. Please keep copies of your orders for comparison.

Shipments will be made, in all cases, unless otherwise ordered, by express, as we have found it safer to send that way than by any other; but if wanted by mail, one-fifth additional must be added to cover postage and balance, if any, will be refunded. Plants, bulbs, etc., shipped by freight are entirely at purchaser's risk.

Non-Warranty.—As most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, owing to weather and soil conditions, improper planting, careless attention, etc., renders it impossible for us to guarantee success. We take all possible care to supply only such stock as will produce satisfactory results, and therefore will give no warranty as to description, quality or productiveness of any of the seeds, plants or bulbs we send out, and will not be responsible for the crop, and every order for articles named in this catalogue will be executed on these conditions only.

Name and address—Please remember to write your name, postoffice, county and state, also give the number of street, or P. O. box as distinctly as possible on each order, also nearest express office.

ROSES IN THE SOUTH

With our mild climate and long growing season, there is no excuse for a scarcity of roses in our Southern gardens. Little or no protection is needed in winter, and for the small amount of labor necessary to prune and care for them, no flower will yield a larger dividend in pleasure. The South should be the land of roses, and it is our desire to make Montgomery headquarters for the distribution of the best varieties in the country.

HOW TO GROW ROSES IN THE GARDEN

Preparation of the Ground.—Roses will grow in any fertile well-drained ground, but they respond quickly to liberal cultivation, producing a more vigorous growth, more flowers and a better quality when so treated. The ground should be dug to a depth of 18 inches, incorporating with the soil a liberal amount of well decayed manure, preferably cow manure, but if this is not readily procurable, our Pure Ground Bone applied at the rate of five pounds to the square yard makes a good substitute.

When, Where and How to Plant.—The best time to plant pot grown roses is from March 1st to June 1st, or that is after there is any chance of a freeze and before the hot weather begins. Always select an open, sunny position. Roses will not do as well in the shade. In planting, set the plants just a little deeper than they were before being taken up. Firm the soil well around the plants.

NEW BUSH ROSES OF RECENT INTRODUCTION

SELECTED AND TESTED FOR THIS LATITUDE. PRICE, 35 CENTS EACH;

\$3.50 PER DOZEN—FROM POTS

Hoosier Beauty—Crimson scarlet.

Frau Karl Druschski—Known as White American Beauty.

 Tea.

PHLOX

Hardy Phlox—These popular favorites require very rich soil and partial shade. The soil should be spaded very deep, and the plants well mulched during summer and should not be mixed in with other plants. Should be kept well watered. If treated in this manner you should have a gorgeous display of bloom.

Beranger—White and pink with amaranth red eye.

Bridesmaid—White with crimson center.

Edmond Rostrand—Reddish violet with large white eye.

George A. Strohlein—Bright scarlet with crimson red eye.

Henry Murger—White, with crimson carmine center.

Le Prophette—Bright violet rose, bright rosy eye.

M'me. Paul Dutrie—Delicate lilac rose, beautiful.

Obergartner Wittig—Bright magenta, crimson carmine eye.

Pantheon—Bright carmine rose.

R. P. Struthers—Rosy carmine with claret eye.

Selma—Pale rose mauve, claret red eye.

Siebold—Vermillion red and orange scarlet; crimson red eye.

Price: 25 cents each; \$2.50 per dozen.

PHYSOSTEGIA—Beautiful mid-summer flowering perennials, bearing spikes of delicate tubular shaped flowers.

Virginica—Bright soft pink.

Alba—White.

PINKS, HARDY GARDEN—Old favorites, with sweet clove scented flowers in the greatest profusion during May and June.

Elsie—Bright rose maroon center.

Her Majesty—Pure white.

Juliette—White laced crimson.

Excelsior—Light rosy pink.

GOLDEN GLOW—Bright golden yellow, very double.

TRITOMA PFITZERII (Ever-blooming Torch or Flame Flower)—In bloom from July to September with spikes from 3 to 4 feet high, of a rich orange scarlet color. 25 cents each; \$2.50 per dozen.

VALERIANA OFFICINALIS (Garden Heliotrope) — Produces heads of rose pink color with a decided heliotrope shade; a fine border plant of easy culture.

FLOWER POTS AND TUBS

We carry at all times a full line of Flower Pots and Cedar Plant Tubs. Prices on application.

INSECTICIDES

Sulpho Tobacco Soap—The best all around Insecticide for house and garden plants; will not injure the tenderest growth; put up in packages—10 and 20 cents.

Schnarrrs Insecticide—The only effective remedy for white fly. 40 cents per quart, 25 cents per pint.

Tobacco Dust—For green fly, etc. 5 cents per pound.

Carman's Antipest—A very effective insecticide for green fly, thrip, mealy-bug, red spider, scale, ants, wire worms, slugs, etc. We use this largely for palms, oleanders, etc. 1 pint to 16, 20, 30, 40 and 80 pints of water. Price 40 cents per pint; 75 cents per quart.
